

# The EuroScholars Program

## A European Academic Research Experience

### (PRELIMINARY) LEARNING & TRANSFER CREDIT AGREEMENT

There are three parts to this agreement:

- » Section 1: General Program Approval
- » Section 2: Research Project Approval (by both home and host university) - 2 pages
- » Section 3: Coursework Approval - 2 pages

Complete the student and program information in each section, follow the directions for gaining approval, and return all pages to the EuroScholars / ISA office.

Supporting documents (course descriptions and the ECTS explanation) can be found online at [www.euroscholars.eu](http://www.euroscholars.eu)

## SECTION 2: RESEARCH PROJECT APPROVAL

After your initial correspondence with the Research Project Supervisor at the Host University, you should complete the project details below and then obtain approval from both the Research Project Supervisor (Host University) and an Academic Advisor at your home university. Please note that for the participation in the EuroScholars Program, these credits have to be earned. It will be at the discretion of the Research Project Supervisor to award these credits based on academic merit.

### DETERMINE YOUR PROGRAM STRUCTURE

While the participation in an established academic research project is the primary feature of the EuroScholars program, some home universities may limit the amount of credit an undergraduate student can earn for research. Therefore, EuroScholars has adjusted its academic structure to accommodate for a more flexible program.

Participants can choose from one of the 3 program options. **Each totals up to maximum number of 30 ECTS** to be earned per semester (which is equivalent to 15 US semester credits and a full time work load for 1 semester). The minimum number of ECTS that can be earned for research is 18 per semester. **Please note that Karolinska Institutet only offers option 1.**

» *Option 1 (higher research focus)*

- Language & culture course (classes + exam)\*
- Participation in research project including article/presentation (research)

» *Option 2*

- Language & culture course (classes + exam)\*
- Methods & literature review (independent study)
- Participation in research project including article/presentation (research)

» *Option 3 (research + coursework)*

- Language & culture course (classes + exam)\*
- Methods & literature review (independent study)
- Participation in research project including article/presentation (research)
- Elective course in the field of research (classes + exam)\*\*

\* At most of the European Host institutions, the Language course is provided by a Language Center which has a collaboration with the university but is not part of the university. Therefore, some North American institutions might not accept the credits for the language course. Students are strongly advised to check this with their study advisor before setting up the learning agreement. If applicable, the student can request the Research Project Supervisor to add extra elements to the research project in order to earn the missing credits in order to meet the requirements of the home institution.

\*\* Option 3 is not possible at all universities or in all academic areas as it depends on availability of courses taught in English at the Host Institution. At some European Host institutions, the credits for the elective course is between 2 - 8 ECTS. Students are strongly advised to check this with their study advisor and Research project supervisor before setting up the learning agreement in order to meet the requirements of the home institution. The number of credits can then be adjusted if applicable.

## SECTION 3: COURSEWORK APPROVAL

Research the required EuroScholars coursework and obtain appropriate course descriptions for each. Bring these to an academic advisor in the appropriate academic department to determine how the credits will transfer to your university. For an explanation of the European Credit Transfer System (ECTS), go to <http://euroscholars.eu/students/academic-information/>

### LANGUAGE AND CULTURE COURSE

You are required to enroll in one Language and Culture course as part of the EuroScholars program. The specific course options vary by Host University. If you have not yet received information regarding the courses available to you from the Host Institution Coordinator, please contact the EuroScholars USA Office.
